PROMISE TROUBLE

Teamsters Not Satisfied With Attitude of the Packers.

THE STRIKE LEADERS

Discharge of the More Active Spirits of the Strike Causes Renewal of Trouble.

A Settlement That Did Not Settle Is the Situation In Chicago.

Chicago, June 6.—Quiet again reigns in the turbulent stockyards district as a result of the settlement of the meat teamsters' strike, but the happiness of the men is marred somewhat by a report that the packers will refuse to re-employ leaders among the striking teamsters. The report caused much uneasiness among the men, and there were mutterings that if those who have been active in the recent disturbances shall be forced into idleness because of their conduct during the strike, there will be further trouble at the stockyards. Soon after the agreement, which is a compromise, was ratified by the men yesterday, a report coming from some untraceable source spread that the packers had determined to take back only teamsters who had not been active in the strike. That the companies would exercise a choice in taking back their former teamsters, seemed not to have occurred to the men before, and on investigation it was found that several workmen employed in the yards had recently been discharged. These men declare that they have been singled out because they were strong union men and strike sympathizers. This is denied by the packers, but the statements of the discharged men are being carefully investigated.

The agreement reached at the conference is a partial victory for the teamsters in that the packers have declared that they will not discriminate against members of the union. The scale agreed upon is 2 cents lower than that demanded by the men. Had the compromise agreement not been effected, yesterday would have been a red letter day in the strike, as the packers had planned to send a wagon train of 135 loads of meat into the heart of the city. Instead of another day of rioting and broken heads, there were peace and the ripple of laughter as the two sides of the controversy good-naturedly discussed the ending of the trouble. When the members of the conference separated yesterday morning the strike was virtually at an end, but the agreement of the committee had to be ratified by the packers and the teamsters. This caused some further delay, and it was not until last evening that all arrangements had been completed for the strikers to return to work today. Meanwhile the only teams called for were to deliver meat urgently needed. The others were told to make the remainder of the day a holiday.

The men who have been discharged are members of the stockyards employees' union. Their organization, which was formed less than three weeks ago and already has a membership of over 700, is affiliated with the butchers' union. Michael Donnelly, president of the North American Meat Cutters' union, has been asked to adjust the trouble. Late last night a conference between Mr. Donnelly and A. W. Leonard, superintendent of the Union Stockyards Transit company, was arranged. Mr. Leonard will be asked to reinstate the men who have been discharged, and unless he consents to do so, it is said that the 5,000 butchers employed in the different packing plants will be called out on strike.

Adjournment Sought.

Washington, June 6.—Representative Ruppert, one of the Democratic members from New York, has introduced a resolution authorizing the adjournment of congress at 3 p. m. June 28. The resolution was sent to the ways and means committee. Chairman Payne and other Republican leaders of the house have not yet taken action as to the time of adjournment, owing to the indefinite situation as regards several of the most important pending measures of legislation.

Suspect Identified.

Warrensburg, Mo., June 6.—It is given out here that Bossie Francis, the negro who is wanted for the murder of Miss Mary Henderson in this county last summer, has been captured at Hugo, I. T. Pictures of the suspect were received by Sheriff Koch yesterday, and they have been positively identified by Mrs. Chap Hyatt, sister of the murdered woman, by Mrs. Hyatt's daughter, and by neighbors. Persons who know Francis will go to Hugo to look at the prisoner.

Bullet Hole In Head.

LaCrosse, Wis., June 6.—A boy driving cattle to pasture yesterday found the body of a man in the bottoms west of the city. A revolver was clasped tightly in one hand and he had a bullet hole in his head, and when found the body was not yet cold. All indications point to suicide. From letters on his person the man was identified as E. W. Truett of Peru, Ills., a traveling man.

GUBERNATIONAL RACE

It Is Definitely Announced That Maj. Steele Isn't In the Race.

Indianapolis, June 6.—George B. Lockwood, chief of the press bureau of the Republican state committee, today denied the report that Representative Steele of the Eleventh district, will be a candidate for the nomination for governor in 1904. He is Steele's private secretary and one of the well known young Republicans of the state. "Steele is not a candidate for governor," said he. "The Eleventh has a candidate for governor, however, in George A. H. Shideler of Marion. Steele has no intention of running for governor." A report to that effect was started a few days ago, and in view of Steele's recent defeat for re-nomination, many have given it credence, as they believed the major would not stay out of politics, although he had been beaten for congress. The way certain politicians are "fixing things" leaves no doubt that there will be one of the liveliest races on record for the Republican nomination for governor.

The prospect of the president not appointing a successor to Judge John H. Baker of the federal court until after the first of the year, has given some of the politicians a severe jolt. They were nearly certain that Judge Baker was about to retire, so they bestirred themselves lustily in the interests of their candidates, but now comes word from an apparently reliable source to the effect that Judge Baker will continue to serve for several months. However, they continue to make an effort to get the place. Elmer Leonard of Fort Wayne and other Twelfth district politicians invaded the White House this week in behalf of John Morris Jr. of Fort Wayne, who wants the place, but to them and others the president has given nothing but the glad hand. It is still believed in Indianapolis that R. C. Hawkins of this city will get the place when Judge Baker is through and the president is ready to make the appointment, but from present conditions there is no certainty as to what will be done with this important place.

At the headquarters of the United Mine Workers today it was intimated that there might be a strike in the Linton coal field within a short time unless evidence obtained by the miners is found to be groundless. This week cars belonging to anthracite coal roads have been set down at mines in the Linton field, but the miners have refused to load them, believing that the coal might be carried to the anthracite markets. The anthracite strike is already depleting the stock of coal on hand, and unless there is a settlement soon the chances are a settlement soon the chances are the supply will be entirely exhausted. The miners believe the anthracite operators will try to relieve their embarrassment by supplying their market with bituminous coal. If they do there will certainly be a general strike, as the bituminous miners will not stand for furnishing coal to anthracite markets so the anthracite strike may be prolonged. The situation at Linton is being investigated, and if it is found there is a purpose to help the anthracite operators the mines will be promptly closed.

Charles B. Rogers of Shoals, Ind., is still consul to Zanzibar. He returned from the island several months ago, and, like his predecessors, "Bob" Mansfield of Marion and John Billheimer of Washington, did not resign until several weeks after his arrival home. He has been nominated for joint senator for Martin, Orange and Lawrence counties by the Republicans, and he is making a campaign already, as both sides have a chance to carry the district. Rogers was here last night and he said that although he had resigned as consul to Zanzibar, that the state department had not notified him that his resignation had been accepted. It is said that Senators Fairbanks and Beveridge will not recommend another Indiana man for the position, inasmuch as the experiences of the three Indians who have held the position has been paraded in print and ridiculed so much that they are not anxious to tempt another outbreak. There are, however, a number of Republicans in Indiana who are trying to get the place.

Whitcaps Whip Woman.

English, Ind., June 6.—Mrs. Alice Hanger, wife of Otto Hanger, a farmer, two miles west of Marengo, Crawford county, was taken from her home by a band of twenty whitcaps, tied to a tree in the yard and severely switched. Her husband was held under guard in the house by a portion of the gang while she was flogged. Mrs. Hanger is 20 years old, and has been married only a few months. It is charged that she treated her step-children in a cruel manner, and after the whipping was warned by the band to be more careful in her care of the children or she would receive another visit from the mob. Mrs. Hanger claims friends and relatives of her husband's first wife incited the flogging.

'Big Evangelical Scheme.'

Warsaw, Ind., June 6.—Rev. J. Wilbur Chapman, secretary of the Evangelical committee which was appointed by the Presbyterian general assembly at its recent session in New York to find means of holding tent meetings in all parts of the United States with a view to bringing non-church-going people into membership if possible, announces that the next meeting of the committee will be held at Winona during the Bible conference June 17 to 24.

ACTS OF BLOODSHED

Spirit of Unrest In Anthracite Region Breaks Out In Earnest.

BOY IS FATALLY SHOT

Guard At One of the Collieries Uses His Weapon Upon Crowd With Deadly Effect.

Intimidation On the Part of the Strikers Continues to Keep Workers Away.

Wilkesbarre, Pa., June 6.—Affairs are still uneventful in the anthracite coal region. Yesterday was probably the quietest day since the engineers, firemen and pumpmen were called out last Monday. There were the usual scurrilous remarks in several parts of the Wyoming valley, in which workmen who refused to desert the companies generally got the worst of it. No one as far as is known was seriously hurt. The work of the miners' pickets and the stoning by boys and young men is having its effect. Each day a fewer number of men leave their homes for the mines, fearing they may not again get home alive.

The operators are still able to fill the places of those that desert or are forced to quit. Most of the companies have exhausted their force of company employees and are now using non-union men more freely. It was their policy not to enlist the services of strangers until absolutely necessary. Non-union men from the larger cities are still coming in, most of them being brought here under the cover of darkness. They are sent to the collieries during the night because the officials do not care to arouse the anger of the men and run the risk of having the recruits attacked. During the day and a part of the night the strikers are constantly on the watch, and in a few minutes can call out the entire population of a mining village if necessary.

The action of the New York board of trade in requesting President Roosevelt to take up the matter of settling the strike has aroused considerable interest. President Mitchell had nothing to say when he was asked for an expression of opinion on the new move. He said he knew nothing about it except what he had read in the newspapers. Mr. Mitchell kept close to his office all day. He says there is nothing new in regard to a settlement of the strike, and expresses himself as satisfied with the progress of the miners' campaign. The mining superintendents say they are getting along fairly well. They continue to have trouble in operating their pumps, however, and in some mines the water is creeping up slowly, notwithstanding the efforts of the men on hand to keep it down. This is caused mostly by a lack of firemen to keep up enough steam, and also to the fact that some of the men have to fill dual positions. The superintendent of one company says that he has received a number of applications from engineers in cities outside the coal regions for positions. The spirit of unrest that has been manifesting itself more or less in this city and vicinity during the last few days broke out in earnest at two places in this city last night, and as a result a boy was dangerously if not fatally shot by a guard at the Stanton colliery and a considerable portion of the fence around the Murray colliery was destroyed by fire.

Ros Melville Divorced.

Cincinnati, June 6.—A decree of divorce was granted by the common pleas court here yesterday to Ros Melville, widely known as the impersonator of the character of "Slip Hopskins." She sued as Rose Hardy, wife of Harry Hardy; that they were married at Marion, O., Jan. 7, 1889; that her husband is a resident of Piqua, O., and that for the past four years they have lived apart. Mrs. Hardy was restored to her maiden name of Smoch.

Prisoners' Bold Escape.

Council Bluffs, Ia., June 6.—Seven prisoners in the jail here overpowered Jailer Martin last night as he entered the cell room to give them their supper and, after locking the jailer and his wife in a cell, made their escape. When the men attacked the jailer his wife came to his assistance with a pistol, but she was overpowered and the weapon taken away from her before she could reach her husband.

Perils of Mountain Climbing.

Rome, June 6.—Signor Riva, a professor in the university of Rome, and Count Gino Prinetti, a cousin of the Italian minister of foreign affairs, were killed in a landslide while ascending Mount Grigna, near Lake Lecco, Switzerland.

Chinese Smuggled In.

Pittsburg, N. Y., June 6.—The smuggling of Chinese across the Canadian border, which of late has been largely confined to the vicinity of Toronto and Niagara Falls, has commenced anew in this vicinity.

Awaiting Final Surrender.

Pretoria, June 6.—All the British columns have been ordered to "stand fast" until the surrenders of the Boers are completed.

TAFT AT ROME

Friars Laud Question Now Up to the Vatican.

Rome, June 6.—The pope yesterday received Judge Taft, civil governor of the Philippines; Bishop Thomas O'Gorman of Sioux Falls, S. D.; Judge Smith and Major Porter of the judge-advocate's department at Washington. Judge Taft presented the pontiff with a box containing President Roosevelt's literary works, and the pope expressed his thanks for Mr. Roosevelt's friendly greetings.

Judge Taft subsequently met Cardinal Rampolli, the papal secretary of state, and opened the discussion of Philippine matters.

While talking with the pope Governor Taft reviewed, in a summary way, the questions in the Philippines which require settlement. He pointed out to his holiness that the readjustment of the relations of the church and state in the islands was not an indication of hostility of the United States to the Catholic church, but declared that such readjustment was merely a necessity under the American constitution. Governor Taft referred to the prosperity and the freedom of the Roman Catholic church in the United States, and cited these conditions as an assurance that the vatican had nothing to fear from the extension of the authority of the United States over the Philippine Islands.

Replying to Judge Taft, the pontiff expressed the greatest pride in the Roman Catholic church in the United States, and intense interest in the great republic. He said he earnestly desired to help the American administration of the Philippines in every possible way, and he assured Governor Taft that the vatican would approach all questions raised in the broadest and most conciliatory spirit. The pope said also that matters of detail in connection with the questions to be decided would be referred to a committee of cardinals, where they would be considered at length, and that all the issues would be treated with the sole aim of reaching a settlement satisfactory to all parties concerned.

The pope appeared to be in excellent health during his interview with Governor Taft, and was of vivacious humor. He referred pleasantly to Archbishop Ireland in what he had to say concerning the Roman Catholic church in the United States.

The Logical Summer Corset.

The Flexibone Moulded Corset, for
hot weather wear. The sweet, cool
face when the hot days come, is made
much more possible to the woman who
has had the good taste to provide
herself with one of these garments.
The elegance of the new figure is
strikingly impressive, besides being
more comfortable. This garment
alone, gives the new form perfectly and
affords comfort in hot weather.

Low Cut and Low Price

are, happily united on the Coronet
Gored Corset. It is without equal
among low-priced corsets. Excellent
material and the best workmanship
enter into it. It will please the woman
of limited means who has been paying
more for corsets not as good or the
same money for inferior ones.

Examine its merits and you will
seek no farther if you want the best
value for your Dollar.

The best Gored Corset for all figures

"French Flexibone"—the Gored
Corset—lighter weight for all figures.
Its design is similar to the lines that
have made the Flexibone Moulded so
famous among fastidious dressers
and it has been adapted to especially
suit the slender woman who wants to
have the stately bearing and pleasing
presence that is so much admired.

\$1.50 and up according to material.

The best Corset for the slight figure

FRENCH FLEXIBONE

is especially suited to the woman who
does not require the heavy stays of
the moulded shapes. It has the ease
and style of the Flexibone Moulded
and gives a graceful bearing to the

Meeting of the Jackson County Medical Society.

The Jackson County Medical Soci-
ety met yesterday afternoon at the
Hotel Jonas with the following mem-
bers present: Drs. Graessle, Gerrish,
Hill, Barnes, Kamman, H. A. Cum-
mings and D. J. Cummings.

Dr. Hill read a well prepared paper
on Nephrolithiasis, or Renal Cal-
culus. He gave the history of cases
that had occurred in his practice and
their treatment. The paper was ably
discussed by the members present and
it was referred to the State Society to
be read at the next meeting.

A few interesting cases were reported
by members and many new ideas
presented and methods of treatment
suggested.

An invitation from the Cox Phar-
macy Co. to the members to refresh
themselves at the soda fountain, after
the close of the session, was accepted.

The society then adjourned to meet
again the first Thursday in July.

The Best Advertising.

A New York book publisher says it
is impossible to sell many copies of a
book without a great deal of advertis-
ing. He has tried many kinds of pub-
licity, even employing person to lec-
ture about the books, as well as dress-
ing up persons to represent charac-
ters in the stories and sending them
through the streets; but he finds that
nothing brings such large results as
newspaper advertising.

Patience and Perseverance.

A recognized authority notes that it
depends a great deal on the character
of the wares whether an advertisement
will bring quick returns. "Some of
the most successful of advertisers,"
he adds, "had to wait some time for
recognition. Perseverance is a need-
ed quality in advertising."

Deafness Cannot be Cured

By local applications, as they can-
not reach the diseased portion of the
ear. There is only one way to cure
deafness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous lin-
ing of the Eustachian Tube. When this
tube gets inflamed you have a rum-
bling sound of imperfect hearing, and
when it is entirely closed deafness is
the result, and unless the inflammation
can be taken out of this tube restored
to its normal condition hearing will
be destroyed forever; nine cases out of
ten are caused by catarrh, which is
nothing but an inflamed condition of
the mucous surfaces.

We will give One Hundred Dollars

catarrh) that can not be cured by

Oklahoma Wheat Crop.

Wheat cutting has begun through-
out the territory of Oklahoma the
earliest date since 1895, when cutting
commenced on May 25. It is estimat-
ed the yield throughout the territory
will be two-thirds of a crop, the de-
crease being due to the long-continued
drought during the winter months,
and the dry winds that blew the wheat
from the ground on the upland. This
is the lowest yield since 1898, when the
crop was a total failure. In this
locality many of the farmers report a
full crop to be harvested. The latest
wheat cutting to begin was in 1898,
when it started on June 18.

FLOATING ISLANDS.
One Island, Covering Two Acres, Seen in the Gulf Stream.
Of all passengers carried by ocean currents floating islands are the most interesting. Many of them have been found voyaging on the Atlantic. These islands were originally parts of low lying river banks which broke away under stress of storm or flood and floated out to sea. The Orinoco, the Amazon, the La Plata and other tropical rivers often send forth such pieces of their shores. Some of the bits of land are of large size and carry animals, insects and vegetation, even at times including trees, the roots of which serve to hold the land intact, while their branches and leaves serve as sails for the wind. Generally the waves break up these islands shortly after they put to sea, but sometimes, under favorable conditions, they travel long distances.
The longest voyage of a floating island, according to government records, took place in 1833. This island was first seen off Florida, and apparently it had an area of two acres. It bore no trees, but it was thickly covered with bushes, and in one place it was thirty feet high above the sea level. It was in the gulf stream, traveling slowly and with occasional undulations to show where the ground swell was working beneath it. Probably it got away from its river anchorage in the spring of the year, for toward the latter part of July it had reached the latitude of Wilmington, Del.
No large animal life had been seen on it, though there must have been myriads of the small creeping things which abound in the tropics. By the end of August it had passed Cape Cod and was veering toward the Grand Banks. It followed the steamer lane routes quite accurately, and several vessels reported it. One month later it was in mid-ocean northwest of the Azores, and its voyage evidently was beginning to tell on it. It was much smaller and less compact. It was not seen again, and probably it met destruction in the October gales. But it had traveled at least 1,000 miles, and if, as was thought, it came from the Orinoco, it must have covered twice that distance.
It is quite possible that floating islands larger than this one, under more favoring circumstances, might during past ages have made the complete journey from America to Europe or Africa and so brought about a distribution of animal species. Of course it is not absolutely certain that this island went to pieces in October. It might, though this is not probable, have floated down into the region of calms and seaweed, where it would be longer preserved.—Theodore Waters in *Auslese's*.

A Real Friend.
"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant of Miry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid. Pellen's drug store. Peter's drug store.

ORCHARD AND GARDEN.
Give the roots of trees a deep and broad bed of soil to start and grow in. In pruning the grape cut back to the third bud, as it is usually the first entirely perfect bud produced.
When winds prevail from any direction, as they usually do, lean the tree a little in that direction when setting out.
The essentials in making a good garden are rich soil, plenty of manure, good seeds, timely labor and a fair season.
Having the soil in a good tilth and planting in straight rows will save much labor in cultivating in the garden.
One of the best ways of getting rid of moss and lichens adhering to the bark of trees is an application of lime whitewash.
In taking trees from a nursery or forest, preserve all of the roots and fine rootlets possible. Dig out instead of pulling up the tree.
When the fruit or leaves of any plant or tree are eaten by insects of any kind, spraying in good season and sufficiently often is the safest and best remedy.
Gladioli bulbs should be planted in full sunshine, four or five inches deep and about one foot apart. Good soil, rather sandy, is best, avoiding manure, especially if fresh.

A Terrible Explosion.
"Of a gasoline stove burned a lady here frightfully," writes N. E. Palmer, of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her. 'Infallible for cuts, corns, sores, boils, bruises, skin diseases and piles. 25c at W. F. Peter Drug Co.'

THE DOORBELL.
It Tells What Manner of Man You Are by Your Ring.
Doorbells are pretty fair indicators of character. Probably you have not been conscious of it, but every time you pull a doorbell you register what manner of man you are. Your ring will tell everything about you, from the color of your eyes to your taste in flowers, but to those who know the signs the doorbell is as good as a title page. Any one who has had occasion to answer bell pulls knows how much difference there is in them. One person's method varies little from time to time, though the difference between that method and somebody else's, while slight, will be sufficiently well marked. It is seldom that two rings are exactly alike.
The housewife recognizes each, the impatient man, who pulls the bell twice in quick succession and does not wait long before trying it again; the one of more phlegmatic temperament, whose ring is slower and more substantial; the hesitating woman, who draws the knob out in a succession of nervous jerks; the seedy individual with matches to sell, who stretches the wire carefully to its full length and then allows it to relax with a faint, apologetic tinkle, and the jolly friend, who knows he is welcome, and therefore grasps the knob with a hearty swing that is fairly eloquent with good nature, and sets the bell to shaking its sides with such peals of echoing laughter that it positively cannot stop at once, but subsides gradually with a merry, irrepressible little titter. A doorbell has as many voices as voices.—Berlin (Md.) Herald.

COOKING HINTS.
Don't salt cucumbers or eggplant before cooking. It makes them indigestible and unpalatable.
Avoid peeling rhubarb when it is young and tender, for it only needs wiping with a damp cloth before using.
A piece of tough meat can be very nicely stewed in a double boiler. It will take twice as long, however, as if cooked directly over the fire.
Fish which contain few bones may be converted into fillets by dividing the flesh from the backbone in long, wide strips and then removing any smaller bones. Soles supply the best fillets.
Crusts and crumbs of bread left over from the table should be dried, put aside for rolling and dipping or to be used in scolloped dishes or mixed with a few sliced apples and baked and served as a dinner dessert.
To prevent sausages bursting when cooking put them into a saucepan, cover them with cold water and bring this to a boil, after which take them out and fry them in the usual way. This, it is said, will not only prevent the sausages from bursting, but will improve their flavor.

GRANT'S RETREAT.
The General Went When a Police man's Club Pointed the Way.
Speaking of nightsticks reminds me of seeing General Grant in his mind greater hour, the only time he was ever beaten, and by a policeman. I told his son, Fred Grant, of it when he became a police commissioner in the nineties, but I do not think he appreciated it. He was not cast in his father's mold. The occasion I refer to was after the general's second term in the presidency. He was staying at the Fifth Avenue hotel, when one morning the Masonic temple was burned. The fire line was drawn half way down the block toward Fifth avenue, but the police were much hampered by the crowd and were out of patience when I, standing by, saw a man in a great ulster, with head buried deep in the collar, a cigar sticking straight out, coming down the street from the hotel. I recognized him at sight as General Grant. The policeman who blocked his way did not. He grabbed him by the collar, swung him about and, hitting him a resounding whack across the back with his club, yelled out: "What's the matter with you? Don't you see the fire lines? Chase yourself out of here and be quick about it." The general never said a word. He did not stop to argue the matter. He had run up against a sentinel and when stopped went the other way. That was all. The man had a right to be there; he had none. I was never so much an admirer of Grant as since that day. It was true greatness. A smaller man would have made a row, stood upon his dignity and demanded the punishment of the policeman. As for him, there was probably never so badly frightened a policeman when I told him whom he had clubbed. I will warrant he did not sleep for a week, fearing all kinds of things. No need of it. Grant probably never gave him a thought.—Jacob Ellis in *Outlook*.

Lemurs For the Zoo.
The national zoo has just received through an animal dealer in Philadelphia a magnificent pair of the large black and white lemurs indigenous to the island of Madagascar. These make the fourth pair of these animals brought to this country, and in addition to being highly attractive by reason of their coat of long jet black and snow white hair and their abnormally large and luminous eyes, they are of very great interest from the viewpoint of science and evolution.
The lemur stands in the same relation to apes and monkeys as they in turn stand to the human race, only in the case of the lemurs and apes the "missing link" connecting the two genera is in real and actual existence, being realized in the "aye-aye," a peculiar animal, also of Madagascar, that is as much lemur as it is simian.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. A Lincoln Story.
The Rev. Mr. Alcott of Elgin, Ill., one of Abraham Lincoln's Springfield acquaintances, tells of seeing him coming away from church unusually early one Sunday morning. "The sermon could not have been more than half way through," says Mr. Alcott. "His son, 'Tad,' was slung across his left arm like a pair of saddlebags, and Lincoln was striding along with long and deliberate steps toward home.
"On one of the street corners he encountered a group of his fellow townsmen. Lincoln anticipated the question which was about to be put by the group, and, taking his figure of speech from practices with which they were only too familiar, said, 'Gentlemen, I entered this colt, but he kicked around so I had to withdraw him.'"

Rheumatic Warped Limbs.
To suffer the most excruciating pains, to lose the use of limbs, and to have the joints swollen and disfigured is the lot of the victim of rheumatism.
Uric acid in the blood is the cause of rheumatism. If the kidneys are active, they remove the uric acid. That is their special work. If, on the other hand, the kidneys are deranged, there is sure to be uric acid in the blood and rheumatic pain through the body.
No amount of liniment will ever cure rheumatism. It sometimes relieves, but cure can only be brought about by setting the kidneys right.
The most effective kidney remedy known to man is Dr. A. W. Chase's Kidney-Liver Pills. They cure

PLAN NOW FOR COLORADO.
THE BURLINGTON'S EXTENSIVE SCHEME OF SUMMER TOURS.
The Burlington Route makes the most attractive excursion rates to Colorado Resorts that have ever been made. For long periods of the summer we make such remarkably low first class round trip rates to Denver, Colorado Springs and Manitou, as \$21.00 from St. Louis, \$15.00 from Kansas City, \$25.00 from Chicago, good all summer; at other periods, only one fare plus \$2.00 round trip.
CHEAP TO PACIFIC COAST, TOO
May 17th to June 8th, August 24 to 31st. Round trip good 60 days, variable routes; from St. Louis \$47.50, from Chicago \$50.00, Missouri River \$45.00; all lower than the one-way rate; only \$11.00 more between Frisco and Portland; first class, good in chair cars (seats free), standard sleepers or Through Tourist Sleeper Excursions. Chief Coast route, the Burlington to Denver, through scenic Colorado, Salt Lake.
COOL MINNESOTA.
10,000 lakes; scores of the coolest and best summer localities in the country; frequent periods of low summer rates.
Apply to nearest travel agent, or write us of your proposed trip, whether to Colorado, Pacific Coast, Yellowstone Park, Minnesota, and let us advise you least cost and assist you.
Send for our handsome Colorado or California 1902 publications free.
